HIGH SCHOOL

**Step 1: Who's Walking Here?**

---

# Student Commute Survey

## Student Commute Survey

### PURPOSE

To collect the commuting data from the whole school, you can use a school-wide survey. This can also be done with just one grade level, or your class alone.

### DISTRIBUTION AND COLLECTION

1. Distribute the half-page survey sheet on a day towards the end of the school week so that students can remember how they commuted over the past three days. This is designed so surveys can be filled out by the whole school. You can ask your fellow teachers to give the survey one morning during morning meeting, or it can even be distributed with homework and returned the next day.
2. It will only take several (1-2) minutes for the students to fill out the three-question survey. Each student should fill out only one survey.
3. Select students responsible for collecting the surveys from other classrooms.
4. It will take some time to add up the numbers from the surveys - especially if you do it school-wide. We suggest that you divide up students into groups in the manner you think will be most effective. Counting all three days' worth of data is important.
5. After the numbers have been added up, take some time to review the results and discuss how many students walk to your school each day. Remember to include those who walk to transit to get the full picture.
6. Recommended: Follow this step with the Bar Graph/Pie Chart exercise provided at <http://streetseducation.org/walkingschools> as part of Step 2.

### UPLOAD THE DATA FOR STEP TWO

When you are finished collecting data, be sure to upload the results on our website. This key step will automatically register you in the city-wide contest. Don't forget to look up our online Step Two lesson plans and choose at lesson plan (or two) that helps your students analyze the data and learn about the streets around the school.

### CONTENTS OF THIS KIT

- **Survey:** Each page has two identical copies of the survey. Print and cut the attached page in half with a paper cutter.

### OTHER MATERIALS

You may need a few other materials that are not provided in this kit. These include:

- Pens or pencils
- Paper cutters

materials

## Commute Survey

Our school is doing a study to find out how students get to school. Please take a minute to let us know the following information about your commute. Please CIRCLE your answer (choose only ONE).

**1**

**HOW DID YOU GET TO SCHOOL TODAY?**

Walked

Biked

Rode the Subway or City Bus

Took the School Bus

Drove or Dropped off by Car

Other:

**2**

**HOW DID YOU GET TO SCHOOL YESTERDAY?**

Walked

Biked

Rode the Subway or City Bus

Took the School Bus

Drove or Dropped off by Car

Other:

**3**

**HOW DID YOU GET TO SCHOOL THE DAY BEFORE YESTERDAY?**

Walked

Biked

Rode the Subway or City Bus

Took the School Bus

Drove or Dropped off by Car

Other:
